**Name of Offeror or Contractor:**

Under the DARPA contract HR0011-06-C-0016, Mustang Technology Group developed the Crosshairs Phase I sensor system. The Crosshairs Phase II-A System, which is the follow-on contract with DARPA (HR001-07-C-0029), includes the further development of the Crosshairs Sensor System, a Counter Shooter Weapon and Crew Interface Stations. Under the Phase II-A contract, the Crosshairs Sensor System should be able to alert the vehicle crew of what type of hostile fire is being directed toward their vehicle, and identify where it is coming from. Hostile fire includes RPGs, ATGMs, Mortars, other missiles/rockets and rifle bullets. The Crosshairs System will include a Crew Interface System that provides the crew with hostile fire indication and the ability to aim and control the Counter Shooter Weapon. Then, utilizing the Counter Shooter Weapon, the crew will have the option of directing a response back at the hostile fire shooter.

C.1.2 Overview

This effort will focus on the physical integration of two (2) variations of mock-up Crosshairs Systems, onto two (2) separate HMMWV vehicles. The two variations will later be described in the statement of work, Section C.2. In this effort, mechanical mock-ups of the Crosshairs Systems components will be used as the actual components are being further developed under the DARPA Crosshairs Phase II-A contract.

C.1.3 The contractor, acting as an independent contractor and not as an agent of the Government, shall provide the necessary personnel, facilities, materials and services to complete the efforts described in this statement of work.

C.2 Statement of Work

C.2.1 Overall Objective

C.2.1.1 The contractor shall design and fabricate mechanical mock-ups of two different variations of Crosshairs Phase II-A System components to be used as surrogates for the purpose of physical integration onto two (2) separate HMMWVs. The contractor shall test both mock-up systems on both of the HMMWVs for mechanical stability. This Statement of Work outlines the effort to accomplish integration of the mock-up Crosshairs Phase II-A Systems on to HMMWVs.

- C.2.1.2 The mechanical mock-ups shall be capable of being mounted onto each HMMWV. Mock-up components for each vehicle shall include:
- The Crosshairs sensor system
  - A Counter Shooter Weapon System
  - The Crew Interface System
  - Hardware for mounting the Counter Shooter Weapon and Crew Interface System on the HMMWV
  - Cabling to connect the mock-up Crosshairs System
  - Electrical interface with the Crosshairs System for the Vehicle Electrical Power System.

C.2.2 Specific Tasks

C.2.2.1 Acquisition, Modification and Maintenance of two (2) HMMWVs

The contractor shall provide two (2) HMMWVs. The contractor shall make every effort to obtain HMMWVs that most accurately represent what soldiers are using in the field currently. The 1114 HMMWV model is desirable. The contractor shall make all necessary modifications to the vehicles to support installation of the Crosshairs System. The contractor shall provide for the maintenance and transportation of these vehicles.

C.2.2.2 Vehicle System Preliminary Design

The contractor shall perform the preliminary design of the vehicle system. The preliminary design package shall include electrical interface, mechanical interface and installation of Crosshairs system components as described in C.2.1.2 above. The contractor shall, with the inputs from the Contracting Officers Representative (COR), determine the location of the Crosshairs Sensor System components on the HMMWV. The contractor shall develop preliminary procedures for alignment of the Crosshairs Sensor System on the HMMWV.

The Government may provide selective HMMWV CAD models if necessary for the contractor to fulfill this scope of work. Requests for CAD models shall be made through the COR and will be handled as For Official Use Only (FOUO).

The contractor shall conclude this task by conducting a vehicle in process review (IPR) to present the preliminary design of the vehicle. If practical, the IPR meeting shall be coordinated with the DARPA Crosshairs Phase II-A Sensor System preliminary design review (PDR).

C.2.2.3 Vehicle System Critical Design

Upon successful completion of the preliminary design of the vehicle system, the contractor shall perform the critical design of the vehicle system. The critical design package will include electrical interface, mechanical interface and installation of Crosshairs system components as described in C.2.1.2. The contractor shall design, build and install all necessary mounting fixtures for the HMMWV. The contractor shall develop final procedures for installation and alignment of the Crosshairs Sensor System on the HMMWV.

The contractor shall, with inputs from the COR, select two (2) Counter Shooter Systems. The first Counter Shooter System selected shall be the Common Remotely Operated Weapons System (CROWS). The second Counter Shooter System shall be selected for the Army alternative affordable configuration which shall include a low-cost version of the Counter Shooter System as an affordable alternative system. The low-cost version of the Counter Shooter System shall have a target cost of at least 50% less than the CROWS system. For each of the HMMWV configurations, the contractor shall develop and install mechanical mock-ups of the Counter Shooter Systems on the vehicles.

C.2.2.5 Design Crew Interface Station Mock-Ups

The contractor shall, with inputs from the COR, design crew interface station(s) for the HMMWV. In order to determine the appropriate and necessary requirements for the crew interface, the contractor shall consider the recommendations of a user jury a team of no less than five (5) actual users who will describe their needs as soldiers. The contractor shall be responsible for orchestration and direction of the user jury. Mock-ups shall be developed to provide users with the look and feel of the designed system. For each of the HMMWV configurations, the contractor shall develop and install mechanical mock-ups of the Crew Interface Station on the vehicles.

C.2.2.6 Design, develop and specify Vehicle Electrical Power System

The contractor shall design, develop, and provide the specification for a vehicle electrical power system capable of utilizing HMMWV vehicle power and furnishing conditioned electrical power to the components of the Crosshairs System. For each of the HMMWV configurations, the contractor shall develop and install mechanical mock-ups of the Vehicle Electrical Power System on the vehicles.

H-18	52.246-4026	LOCAL ADDRESSES FOR DD FORM 250 AND WAWF RECEIVING REPORTS	SEP/2006
	(TACOM)		

(a) The Contractor may use either the Material Inspection and Receiving Report (DD 250) or Wide Area Workflow (WAWF) to process receiving reports for inspection, acceptance, and payment. Use only one method per contract; not both.

(b) If you are using the Material Inspection and Receiving Report (DD 250), use one of the following methods to send each DD 250 pertaining to this contract to us:

(1) Our first preference is for you to use electronic mail (e-mail), using the following e-mail address: [DD250@tacom.army.mil](mailto:DD250@tacom.army.mil)

(2) Our second preference is for you to use data facsimile (datafax) transmission, using this fax number:

(586) 574-7788 and use "DD250 mailbox" in the "to:" block of your fax cover or header sheet.

In either method, do not mix DD250s from more than one contract in a single transmission. That is, you may submit multiple DD250s in a single transmission, but they must all be against the same contract. These copies meet the requirements for the Purchasing Office copy and the Army Inventory Control Manager copy listed in tables 1 and 2 of DFARS Appendix F. The DD250 form may be found, in three different formats, on the World Wide Web at <http://www.dtic.mil/whs/directives/infomgt/forms/forminfo/forminfo2126.html>

(c) If you are using Wide Area Workflow (WAWF) instead of DD 250s, we may require copies of the WAWF Receiving Report, Bills of Lading, or other documentation to resolve delinquencies, payment issues, or other administrative issues. If this documentation is requested, use the same email address or fax number shown in paragraph (b) above to submit the information. No copies of the WAWF Receiving Report are required unless specifically requested by the PCO, buyer, or other appropriate government official.

The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com/> ; or

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Governments reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(1)

(i) If a Contractor has legally changed its business name, doing business as name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business days written notification of its intention to:

I-86      52.222-39      NOTIFICATION OF EMPLOYEE RIGHTS CONCERNING PAYMENT OF UNION DUES OR FEES      DEC/2004

(a) Definition. As used in this clause--

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

(b) Except as provided in paragraph (e) of this clause, during the term of this contract, the Contractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)).

#### Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

For further information concerning your rights, you may wish to contact the National Labor Relations Board (NLRB) either at one of its Regional offices or at the following address or toll free number:

- (xxii) hydrobromofluorocarbons (HBFCs)
- (xxiii) All isomers of the substances listed in this paragraph (a)(1) except for 1,1,2-trichloroethane, which is an isomer of methyl chloroform.

(2) Directly requires the use of CIODS means that the Government's specification or technical data package, at any tier, explicitly requires the use of any Class I Ozone-Depleting Substance (CIODS) in performance of the contract.

(3) Indirectly requires the use of CIODS means that the Government's specification or technical data package, while not explicitly requiring the use of any CIODS, does require a feature that you can meet or produce only by the use of CIODS.

(b) Per Section 326 of Public Law 102-484, the Department of Defense cannot award any contract that directly or indirectly requires the use of CIODS unless (i) the use of such substances is essential for contract performance, and (ii) no suitable substitute for the CIODS currently is available.

(c) Before releasing this solicitation, we conducted a best effort review of its technical requirements, standards, and specifications, to see if any contain requirements for CIODS. If we identified any such CIODS requirements, they are identified in subparagraph (d)(1) below.

(1) In addition, to help TACOM meet its obligations under Public Law 102-484, we ask you for input. If you have any special knowledge about any CIODS requirements that our specifications impose, whether directly or indirectly, or if you know about potential substitutes for any CIODS required by our specifications, we would appreciate the information.

(2) It should be understood that you are not obligated to give us the information requested by this provision, and that we cannot provide any separate or special payment for doing so. However, we are asking only for information based on knowledge that is readily available to you as a supplier in this industry. We do not expect you to do any review of our specifications more extensive than the one you perform in order to develop your price.

- (d) Please summarize your own review of our specification/technical data package, by completing the following:
- (1) During our review of the specification or technical data package in this solicitation, we--
- [ ] have  
[ ] have not

found any direct requirements to use any CIODS. (If have is checked above, offerors are asked to identify, on the following lines, (i) any specifications and standards not already listed immediately below that directly require the use of CIODS; (ii) the CIODS required by the listed specifications and standards; and (iii) whether any substitutes are known to be available for the listed CIODS.)

<u>Spec/Standard</u>	<u>Required CIODS</u>	<u>Substitute Available?</u>
_____	_____	_____
_____	_____	_____

- (2) Further, in our review of the specification or technical data package in this solicitation, we--
- [ ] have  
[ ] have not

found any indirect requirements to use any CIODS. (Offerors who check have above are asked to identify, on the following lines, (i) the specifications and standards for this acquisition that indirectly require the use of CIODS; (ii) the CIODS indirectly required by each listed specification and standard; and (iii) whether any substitutes are known to be available for the listed CIODS.)

<u>Spec/Standard</u>	<u>Required CIODS</u>	<u>Substitute Available?</u>
_____	_____	_____
_____	_____	_____

- (e) Offerors who check have in paragraphs (d)(1) or (2) above also are requested to say whether substitutes are known to be available for any of the CIODS. If an available substitute would perform less well than the CIODS would perform, please let us know what the technical trade-offs are to the extent that you have such information available.
- (f) If you checked have in paragraphs (d)(1) or (2) above, and also indicated that substitutes for CIODS are available, we need to know whether use of the suggested substitute would have any effect on your proposed price. If your proposal price for compliance with our current specifications differs from what your price would be if the substitute for CIODS were required, we ask that you let us know what the difference would be in Section B of this solicitation, by giving us two prices or offers:

- One price/offer, labeled with CIODS, will be the offered price in the event that CIODS are used.
- The second price/offer, labeled without CIODS, will be the price offered if substitutes for CIODS are used, and will specify the substitute(s) being proposed for use.

- (g) Section 326 of Public Law 102-484 reflects the national and international interest in minimizing the use of CIODS. For this reason, TACOM reserves the right to (i) determine the suitability of substitutes for CIODS when such potential substitutes are available; and (ii) change the specification in any contract awarded as a result of this solicitation, to require the use of suitable substitutes in lieu of CIODS.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price.
